Breakin' Through

September 7-9, 2018

University of Wyoming Fieldhouse,  
Laramie, WY

# WyoHackathon 2018

The State of Wyoming enacted five trail-blazing blockchain bills during its 2018 legislative session that garnered international attention. The September 7-9 WyoHackathon provides an opportunity for the global blockchain community and the State of Wyoming to converge, thank each other, collaborate and keep Breakin' Through.

## **Wyoming has a rich history of Breakin' Through**

Wyoming has a long record of being first: The first woman to vote in the US, the first female governor, the first national park, and the first LLC law. And it blazed a trail in blockchain, becoming the first elected body to recognize utility tokens as a new form of property that is neither securities nor money under Wyoming law. Wyoming offers blockchain businesses its most favorable tax, business entity and privacy protections.

We expect to have roughly 300-400 developers from all over the world participate in this hackathon. With the help of sponsors like you, we will be able to offer an engaging workspace, workshops, and prizes as well as food, drinks, and giveaways.

## **Confirmed Guest Speakers include:**

**Joseph Lubin**, Founder, ConsenSys\* (Keynote)

**Dr. Patrick Byrne**, Founder & CEO, Overstock.com

**Erik Voorhees**, Founder & CEO, ShapeShift

**Hon. Tyler Lindholm** (WY - HD1)

**Caitlin Long**, Co-Founder, Wyoming Blockchain Coalition

Sponsoring WyoHackathon is a great way to share your brand with the upcoming talent in the blockchain developer community. A complete list of sponsorship tiers and corresponding benefits are listed on the next page.

Thank you for helping us make WyoHackathon a success!

*\*ConsenSys has committed to fund the winning entrant of WyoHackathon*
